What could your charity do with an additional

$5 million

every year?

An ambition for technology-driven philanthropy.

Education / Scholarships / Health / Opportunity

Money was never the point.
It was simply the instrument.

Targets are unverified. No guaranteed returns. Entire initial capital may be lost.

One donor. One commitment.

A defined allocation of realized net profits after 12 months.

$5,000

Initial donor-owned risk capital

Proposed regulated account; Swiss custody envisaged.

FIRST

$1,000,000

100% to the donor

EVERY DOLLAR ABOVE

$1,000,000

100% to donor-selected charities

Illustrative allocation only

If realized net profit reaches $6 million (not a forecast):

$1M / Donor

$5M / Selected charities

Distribution under a written agreement, subject to legal and tax review.

The scenario implies an exceptional 120,000% return on initial capital.

Targets are unverified. No guaranteed returns. Entire initial capital may be lost.

Intelligence with accountability.
